## **Singleton Agricultural Education Day**

### **Attention: Principals, Teachers and Parents/caregivers**

The Singleton Beef and Land Management Association Incorporated are in the planning phases for the Singleton Agricultural Education Day, proposed to be held on **Friday 23rd June 2023, at the Singleton Showground.**

As you may appreciate there is a lot of time and effort that goes into planning such an informative day for the students to gain greater knowledge on the Beef and Agriculture industries. This year before we confirm the facilitators, we would like to know the interest and support for this event from the schools before we move forward.

Please - we would like to have expression of Interest from you the Principal's, Ag./Teachers and Parents who may bring the students to this educational day. We are seeking an indication to see how many schools are interested in attending this day.

Could you please reply by the 1<sup>st</sup> March 2023, via email. [singletonbeefandland@gmail.com](mailto:singletonbeefandland@gmail.com)

If you would like to discuss in more detail, please contact myself on the below numbers.

Kind regards,
